- 1 The end of a course manuscript, while it is a skill needed. when talking to my classmates, some of us do not really know the best way to start. More check-ins are needed and perhaps a one on one meeting.
- 2 I don't know if I'm going to remember a lot of the content we covered since all of the tests were open note.

The plan was sort of flexible since she'd never done this type of class where the students do the lectures before, but we talked about the

1 schedule in-detail on the first day of class and it was always on the syllabus.
